Nature, Soil and Crafts

Jardin Arboretum de Bonsai

Educational farms

Unique in Europe, Garden Bonsai Arboretum invites you to discover the nature of the arts of Japan.

In Gard Cévennes, on land tree, under the cool shade of pines and holm oaks terraces you can admire a unique collection of over 70 bonsai, consisting of native species (coniferous and deciduous), fruit 20 years of work and experience.

You will find, among others, one of Europe's largest pine and yew more than a century old mountain collections.

Garden Bonsai Arboretum also provides spaces devoted to peace and serenity of Japanese gardens. You can see the three classic garden styles in Japan: The tsukiyama the chaniwa and kare sansui.

New in 2014: The barn miniature animals

A new area of 3500m² was laid in the Garden Bonsai Arboretum to welcome our adorable little miniature animals.

This new park is part of the course offered to visitors, it is dedicated to miniature animals with 4 legs (do the little hairs) and two legs (the Classified feathers).

The little feathers: ornamental bantams

The little hairs: American and English horses, donkeys, goats, rabbits ...

(at 11.00 km)
